## Description:

This feature allows the users to see a degree progress report calculating how much of their degree (based on major/minor) is completed and which courses need to be completed.

## Objective:

To provide the functionality of viewing their degree progress report and downloading it locally.

## Pre-conditions:

Authenticated user that is part of the institution with valid login information.

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	User clicks 'Get Report' without having major and course information	User selects the valid button	no report generated – lack of major information to create the report	no report displayed	Pass	
2	User clicks 'Get Report' with having major information and without course information	User selects valid button	report generated – without course information and completion percent as 0%	report displayed	Pass	

**Post-conditions:**

The degree progress report displayed should be up to date with all courses the users have taken, any changing major/minor requirements, and updates to the completion percentage.
